REISSUE APPLICATION DECLARATION

Commissioner for Patents

Mail Stop Reissue

Alexandria, Virginia 22313-1450

Sir:

I, John W. Matthews, declare as follows:

1. I am the named inventor of the invention disclosed and claimed in U.S. Patent No. 5,629,105 ("the '105 Patent"), issued May 13, 1997, for which a reissue patent is sought.
2. My residence, post office address, and citizenship are as stated below, adjacent to my name and signature.
3. I believe I am the original, first and sole inventor of the invention disclosed and claimed in the accompanying application for reissue of the '105 Patent. I have

reviewed and understand the contents of the accompanying reissue application, including the claims, as amended.

4. I believe that the '105 Patent is partially inoperative or invalid by reason of claiming more or less than I had a right to claim in the '105 Patent. At least one error upon which I base reissue is described as follows: Claim 40 recites a first electric lamp having a filament at a focal point of a reflector, and a second electric lamp extending into the reflector on a side of the first electric lamp. In view of a recently uncovered prior art patent, U.S. Patent No. 4,783,725, I believe claim 40 contains an error in not expressly reciting that the second electric lamp is oriented substantially parallel to the first electric lamp, and the first and second electric lamps are pointed in the same direction.

5. All errors which are being corrected in the present reissue application up to the time of filing this declaration arose without any deceptive intent on my part.

6. I acknowledge the duty to disclose information which is material to patentability, as defined in 37 C.F.R. § 1.56.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful, false statements may jeopardize the validity of the application or any patent issued thereon.
